- **We CANNOT change, add, or delete a diagnosis code to make it considered a screening colonoscopy.** Your insurance company may tell you that we can, but that is not true. Your medical record is a binding legal document that cannot be changed, per governmental, insurance, and compliance guidelines. Changing, adding, or deleting a diagnosis code is considered insurance fraud and is punishable by law.
- **For all above categories, you should be prepared to pay an amount toward your deductible and out-of-pocket maximum. It is important to know that your insurance company may not consider your colonoscopy a "screening colonoscopy".**
- Because each situation is different, we strongly encourage all patients to check with your insurance carrier about your coverage before your procedure. **This can help you avoid surprise costs.**
